NEW | EYE SERUM

Scientifically Formulated to
Achieve a Botox-like Effect for
Younger Looking Eyes

Look no further for an all-in-one technologically advanced eye serum that works. Formulated with the latest groundbreaking ingredients and a targeted release technology, this is your one-stop solution for all major eye concerns, including eye bags, puffiness, dark circles, loss of firmness, lines and wrinkles and dehydration. Try this out for yourself to experience real and long-lasting results.

Touch of Indulgence

Conveniently stored in a pump bottle for ease of dispensation and maximum hygiene, the translucent and lightweight eye serum has a cool-to-touch and non-greasy texture that is instantly absorbed into skin. For best results, apply to the entire eye area twice a day. Suitable for all skin types.

Why derma-Rx EYE SERUM?

Ingredients & Benefits

NEUROPEPTIDES

The key active ingredient - a synergistic blend of neuropeptides* - combats ageing signs and restores youthfulness effectively by providing a Botox-like effect to relax lines of expression, wrinkles and firm up sagging skin. Additionally, the neuropeptides are nano-encapsulated in a dual layer capsule delivery system to allow for targeted, effective release of the ingredients throughout the day in the deeper layers of the skin cells to ensure maximum efficacy.

* Palmitoyl Hexapeptide-52 and Palmitoyl Heptapeptide-18

RESULT

Instant visible lifting of saggy & puffy skin around the eye area. Lines & wrinkles are less prominent with each usage.

CHRYSIN

A powerful bioflavonoid known for its anti-oxidant & anti-inflammatory properties, Chrysin helps remove pigment build-up in the eye area for that coveted wide-awake looking eyes by eliminating iron deposition in the eye area and bilirubin, a by-product when blood cells break down.

RESULT

The eye area is visibly brightened, dark circles are diminished and puffiness is eliminated.

NATURAL CARBOHYDRATE COMPLEX

Formulated with Saccharide Isomerate, a natural carbohydrate complex similar to that of present in the human skin, the Derma-Rx Eye Serum provides instant & long-lasting moisture to quench your eye area's thirst for improved smoothness, softness & suppleness.

RESULT

The eye area is instantly hydrated and skin feels smooth, supple and soft.
